

Parking Availability

Parking Availability: There is an abundance of daily parking lots located within a three block radius of Energy Solutions. The parking lots on Harrison between 17th Street and 14th Street fill up early. The lots on Harrison Street and Webster Street heading towards 19th Street have more space availability throughout the day. Some lots are monitored by an attendant but most are not monitored. While crime and vandalism is uncommon during weekday business hours it does happen at times. Please hide your valuables from view and if you are concerned about safety you may want to choose a lot that is monitored by an attendant.

Costs: Parking in this area ranges between \$7 and \$15 for all day parking and \$1.25 and \$2 for hourly parking. Most lots require *cash payment only* and *do not* provide change. Douglas Parking provides a Pay by Cell service (the number for Pay by Cell is found either below or behind the payment machines) in all their lots except the one at 17th Street and Broadway. You can pay by cash or credit card for street parking.

On Harrison between 17th and 14th Streets:

There are five parking lots within three blocks west of Energy Solutions. There is also a corner market at the corner of 15th Street if you need change but they don't open until 9AM.

Within one block of ES
